GPU Support Bracket Installation Diagram

1. Take out the GPU support bracket parts pack

2. As shown, slide Part A onto Part B (note the front/back orientation) and secure it with two thumbscrews

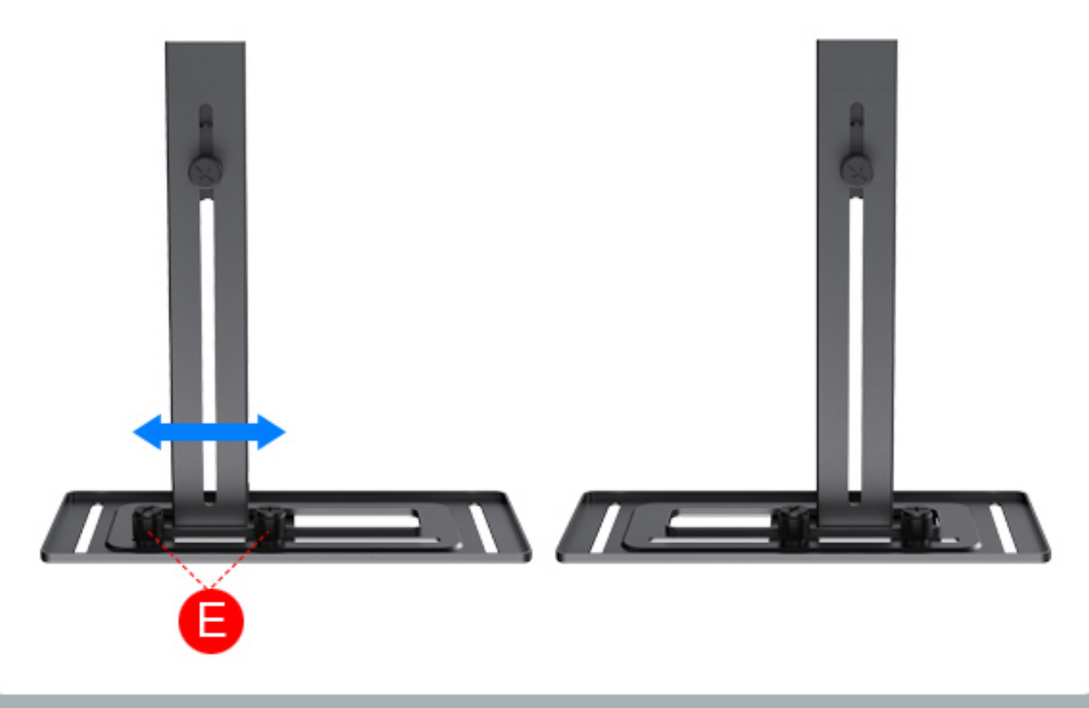

3. As shown, secure Part C onto Part B

4. Fix the GPU support bracket onto the installation position

5. Loosen screw D to adjust up and down based on the GPU installation height

6. Loosen screw E to adjust left and right based on the GPU length
